

Pasticceria Mignon

Via Conti, 46
34138 Trieste

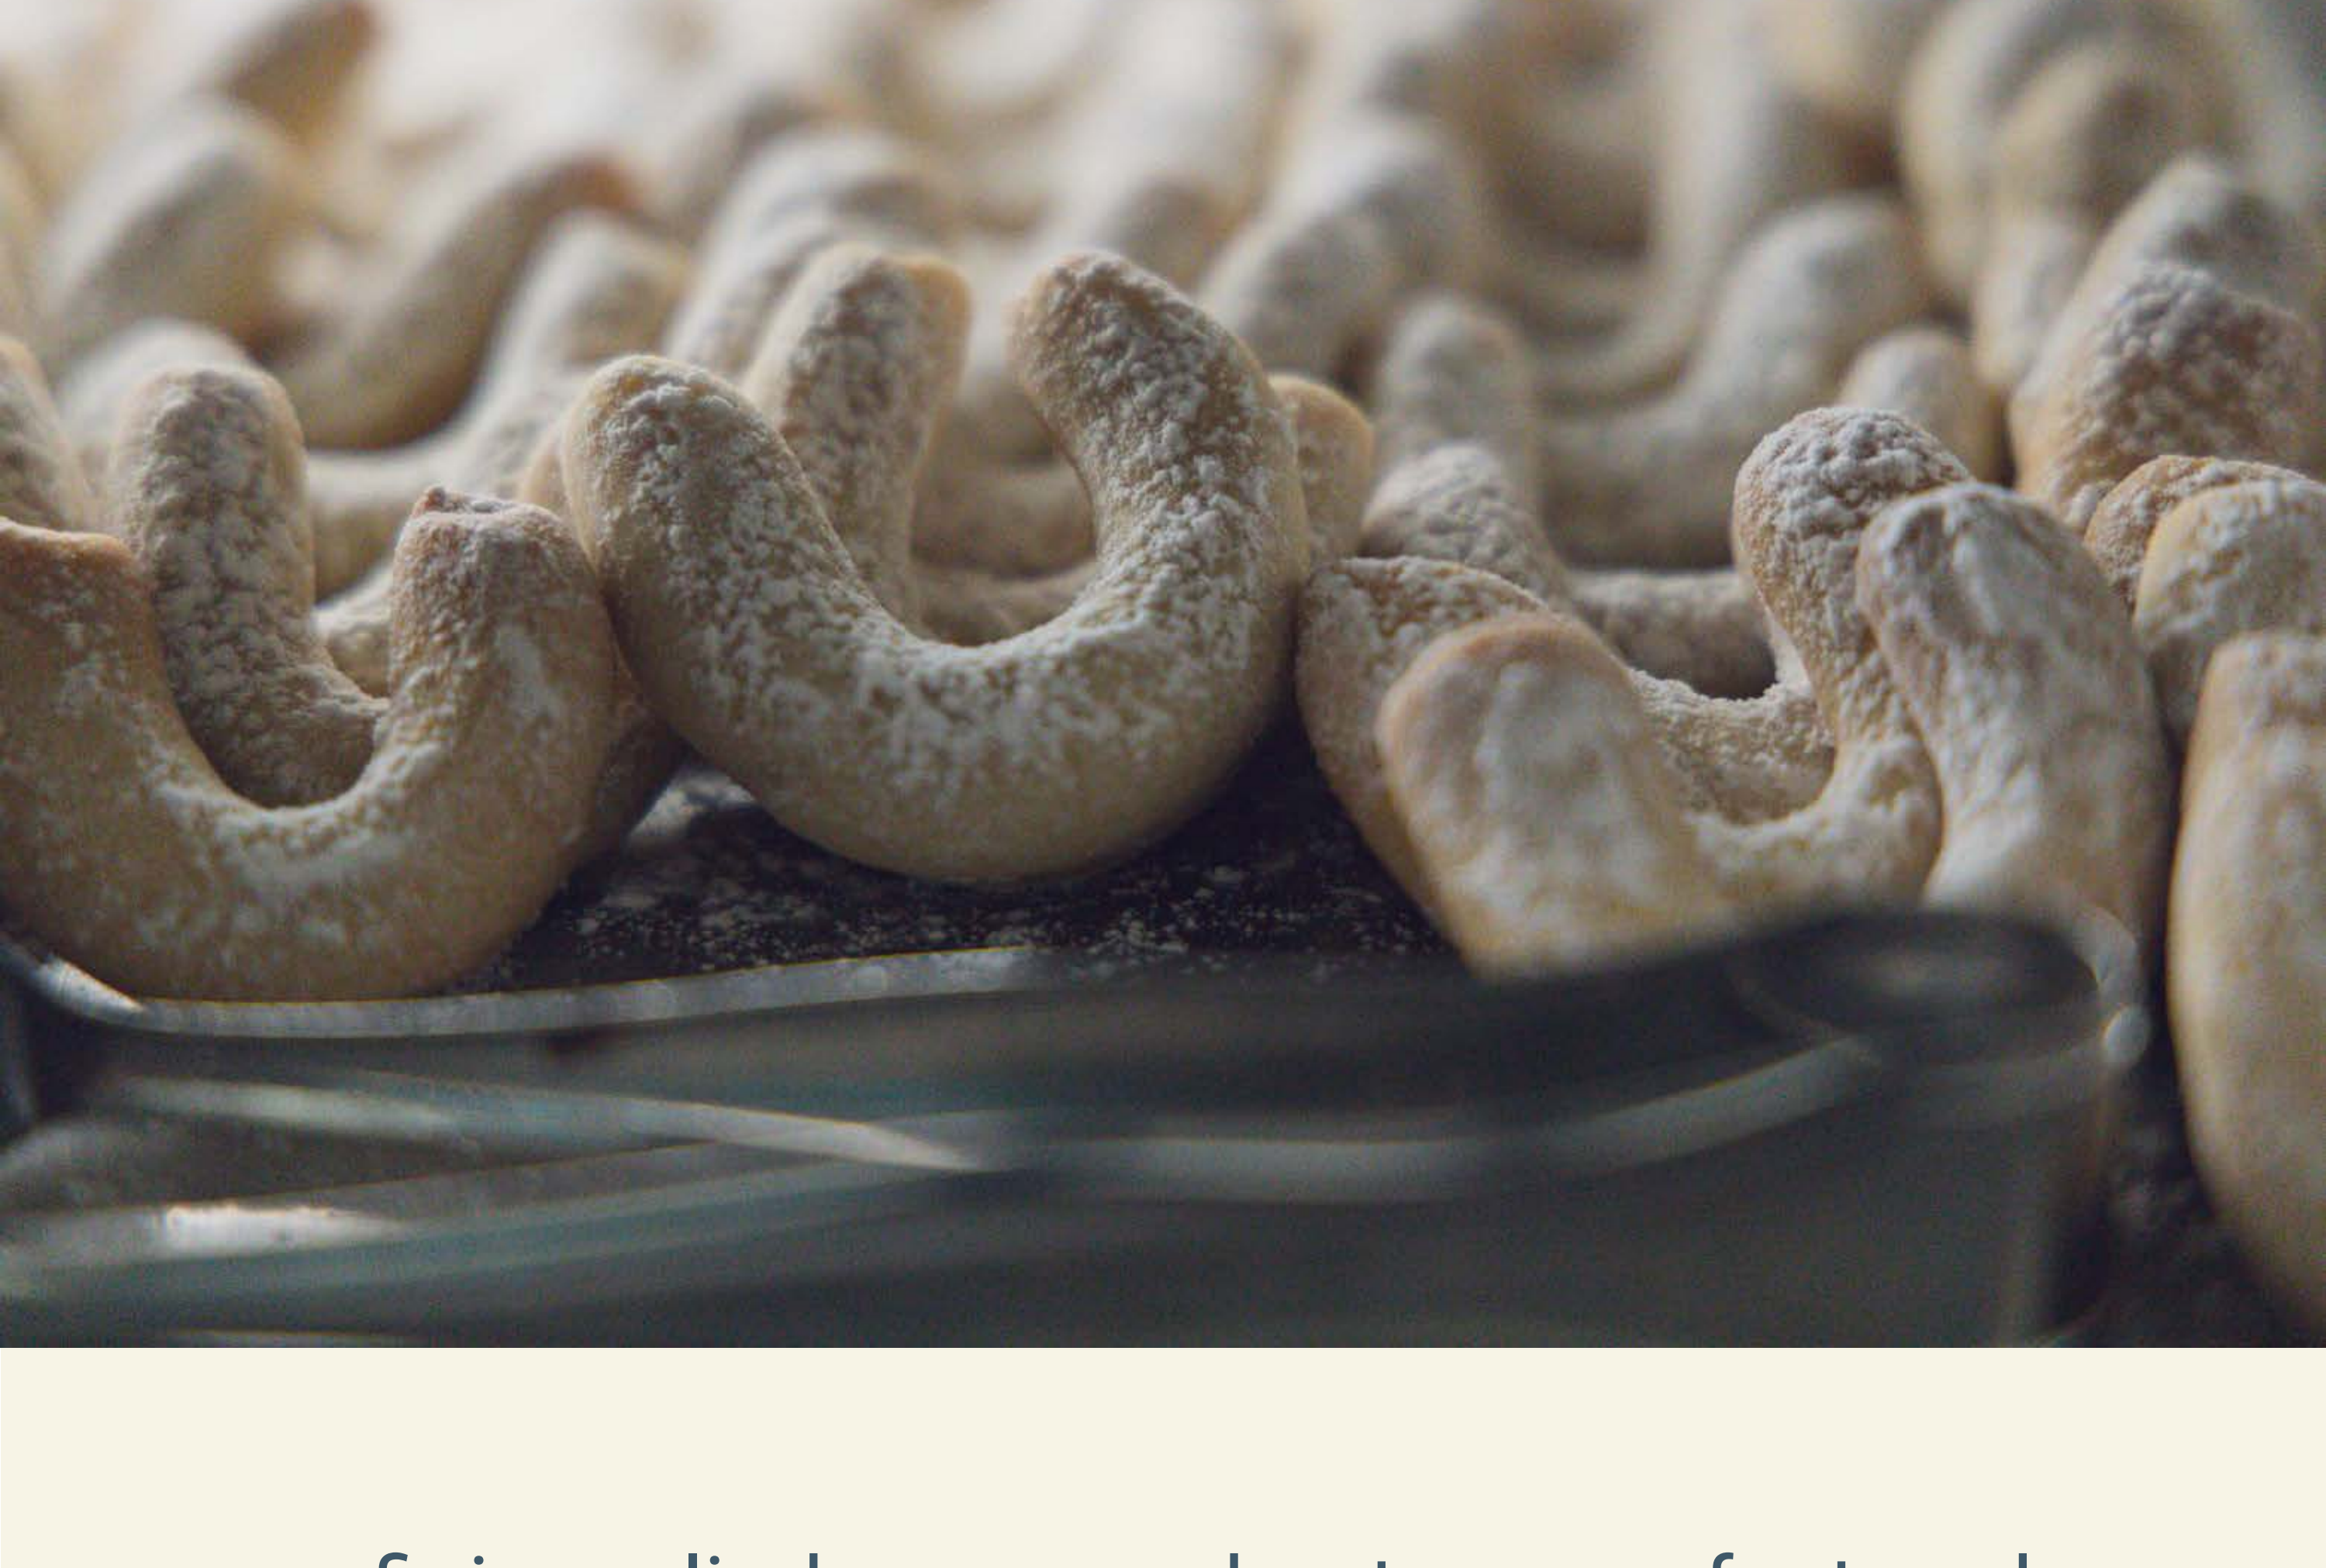

Established in 1933, this historical pastry shop shares its birth year with the building that houses it. Over the decades, it has passed

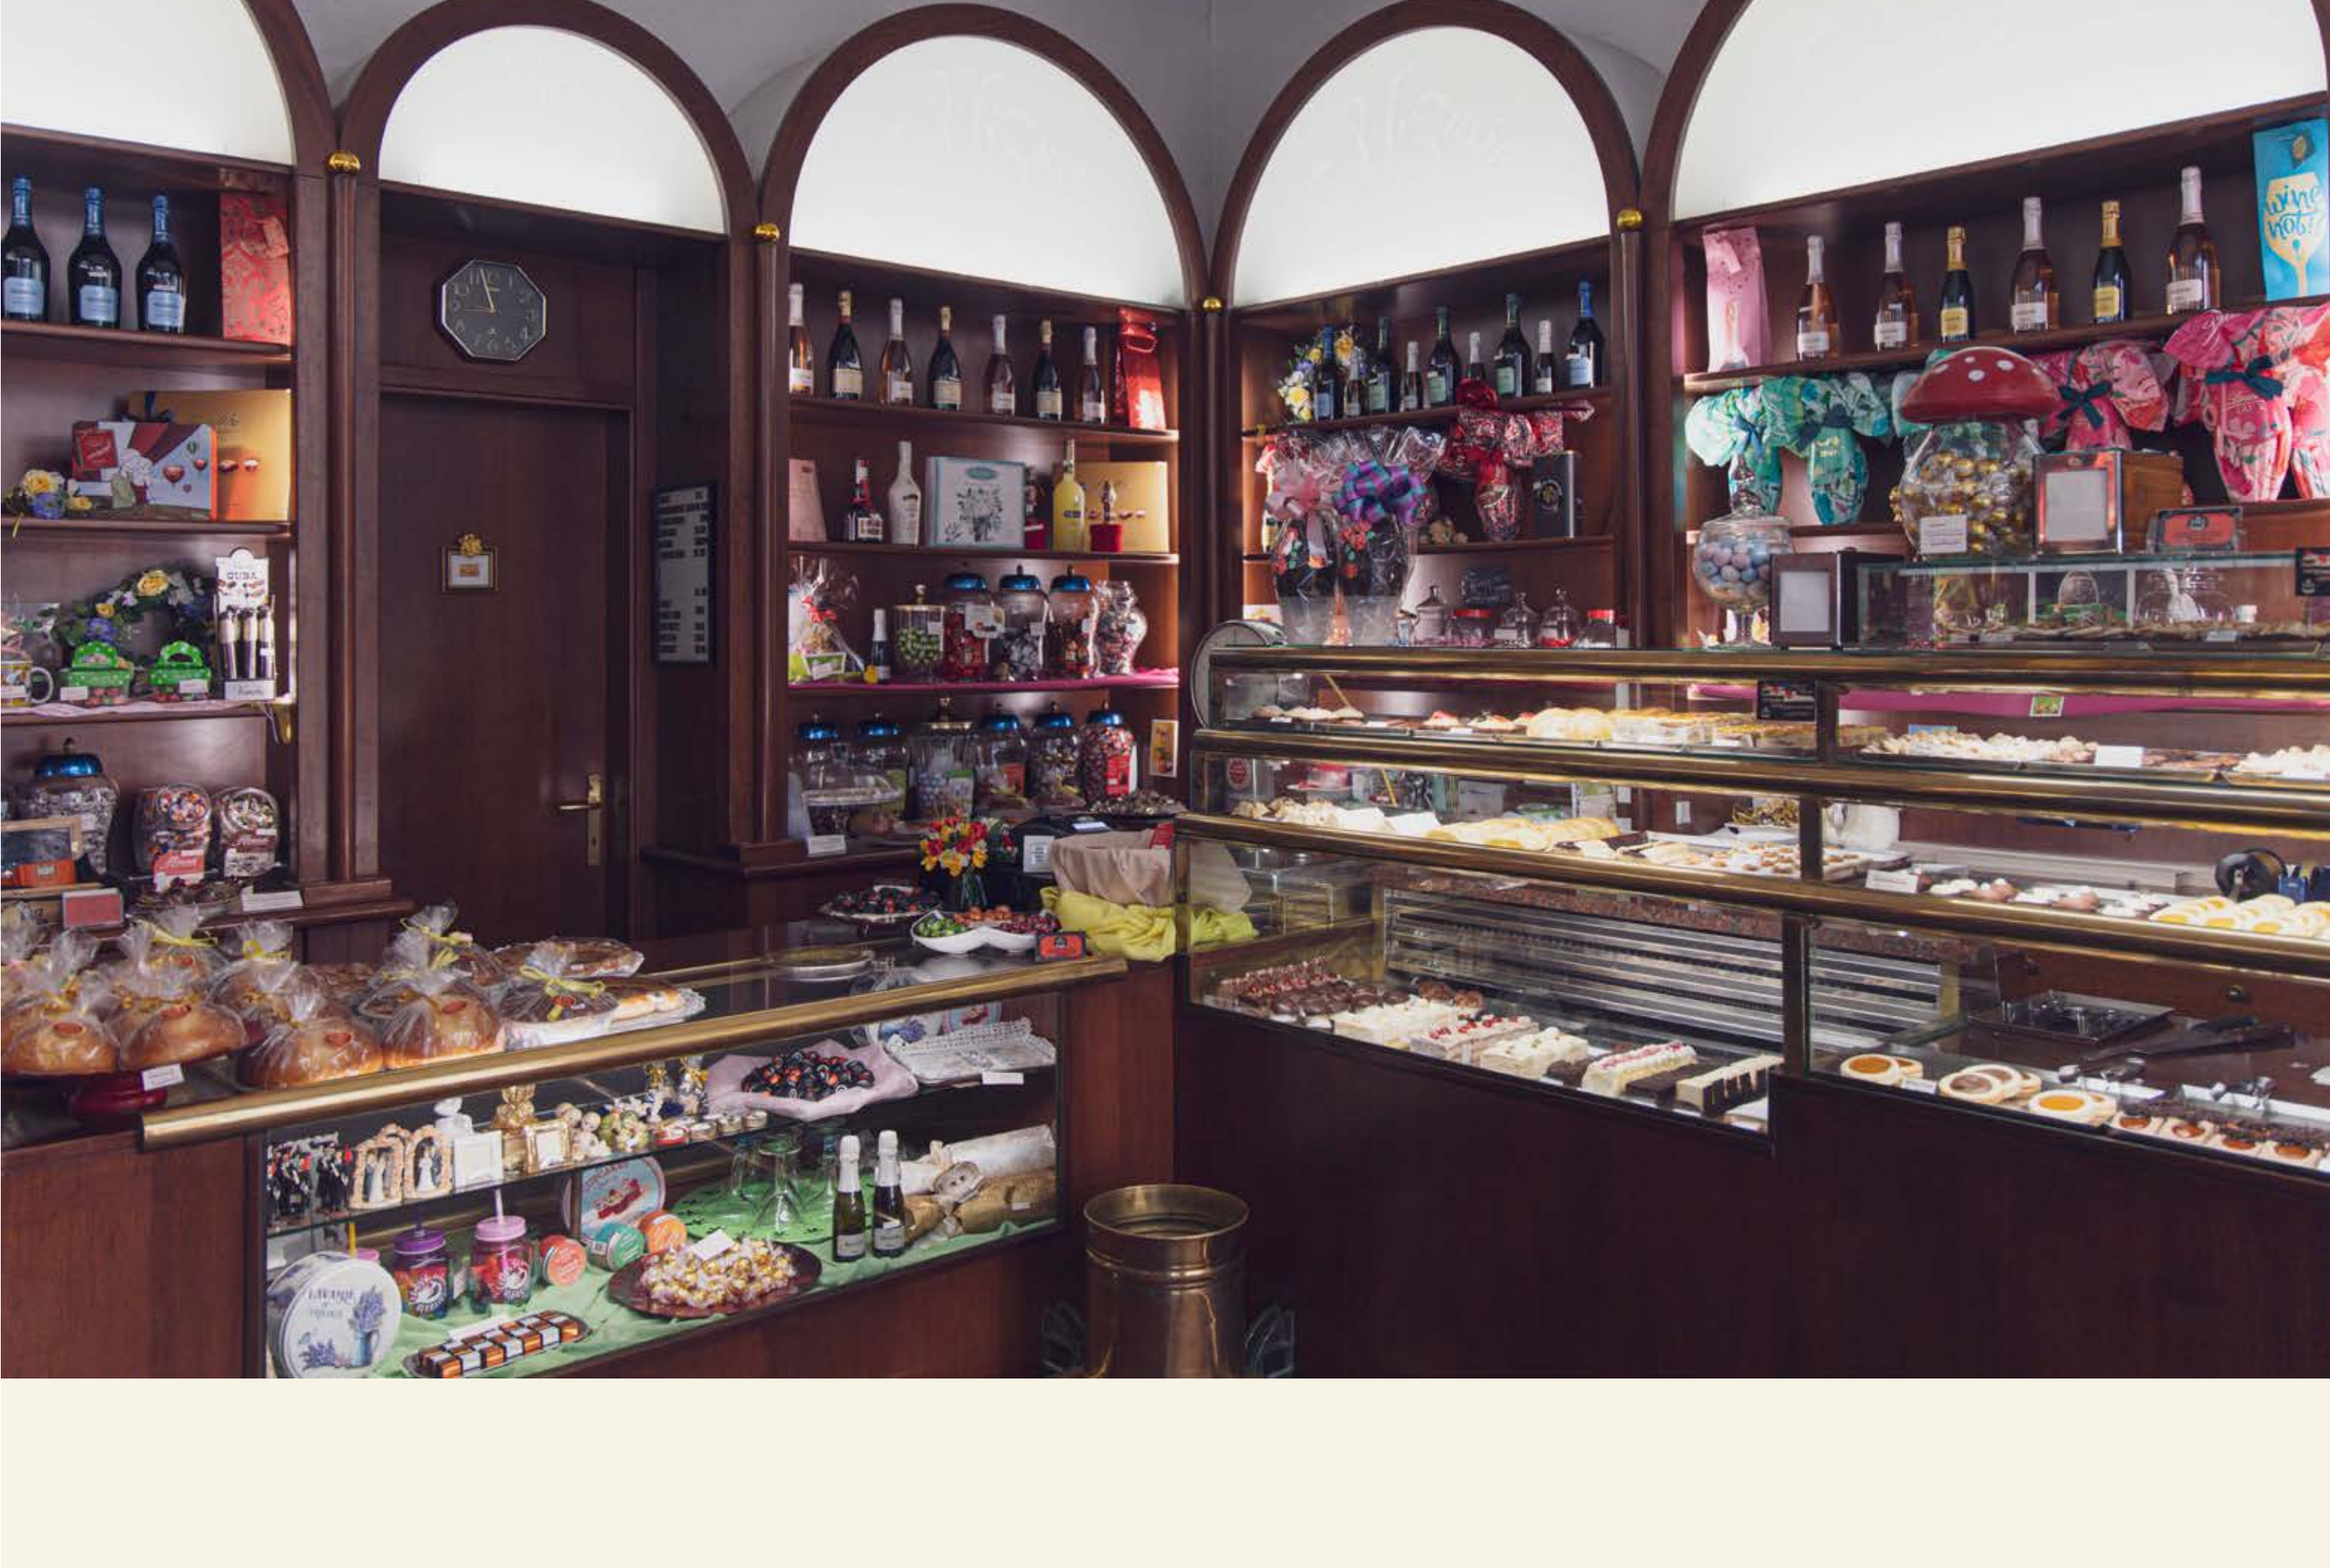

through the management of four owners: Matteo Hrelia from 1930 to 1939, Ruggero Nasazio from 1940 to 1964, Giuseppe De Nicoloi from 1964 to 1971, and finally Maurizio Benato and his wife Eleonora, who took over in August 1971. In 1988, the couple decided to restore the customer area. Inside, the

pastry shop preserves a range of historical equipment, including a Leira oven, Artofex

refining cylinders, an eggbeater manufactured by Pietro Berto's workshops, antique scales,

and glass candy jars. The store's original sign also stands as a reminder of its history.
